Phonics

Little Wandle Letters and Sounds Revised

Our school has chosen Little Wandle Letters and Sounds Revised as our systematic, synthetic phonics (SSP) programme to teach early reading and spelling

“

Phonics is:

**making connections between the sounds
of our spoken words and the letters that
are used to write them down.**

”

It sounds complicated but it really isn't!

Blending to read words

Some children learn to blend really quickly, and others take a little longer. If your child is finding it difficult, ask your child's teacher for ways to help at home – playing blending games at home is so helpful!

We usually teach four new sounds a week and have a review lesson on a Friday. You will get a list of the sounds that we are learning to have at home. This will help you with formation and pronunciation.

Little Wandle Letters and Sounds Revised 2021: Programme progression Reception and Year 1 overviews

This programme overview shows the progression of GPCs and tricky words that we teach term-by-term. The progression has been organised so that children are taught from the simple to more complex GPCs, as well as taking into account the frequency of their occurrence in the most commonly encountered words. All the graphemes taught are practised in words, sentences, and later on, in fully decodable books. Children review and revise GPCs and words, daily, weekly and across terms and years, in order to move this knowledge into their long term memory. Children need to learn to read as quickly as reasonably possible, so they can move from learning to read, to reading to learn, giving them access to the treasure house of reading. Our expectations of progression are aspirational yet achievable if schools maintain pace, practice and participation by all children. Children who are not keeping-up with their peers should be given additional practice immediately through keep-up sessions.

We will work our way through the whole Little Wandle Programme until your child can read fluently.

How we make learning stick

There are specific resources for the Little Wandle Programme which the children will be very familiar with. Each sound that we teach to begin with has either a mnemonic (like the astronaut that you can see here) or a phrase like boing-boing for 'oi'. This helps the children recognise and remember the graphemes. Every time we teach a new sound, we also read words during the phonics lesson that contain that new sound, so that the children practise what they have learned. We then go on to reading a sentence containing some of those words. We have displays in the classroom and on the tables to support the children throughout the day.

Reading and Spelling

Reading and spelling

This is an example of what the children learn in Year 1. Children learn that there are graphemes that can have different sounds and sounds that can be made with different letters.

Use the backs and fronts of the Phase 5 cards to show 'ea' and 'ow'.

Spelling

- Say the word.
- Segment the sounds.
- Count the sounds.
- Write them down.

Model the process on a flipchart for the parents to see.

How do we teach reading in books?

Reading practice sessions are:

- timetabled three times a week
- taught by a trained teacher/teaching assistant
- taught in small groups

The children read the same book three times in a week. The first time we work on decoding (sounding out) the words, the second time we work on prosody which is reading with expression – making the book sound more interesting with our storyteller voice or our David Attenborough voice – and the third time we look at comprehension. We read the books three times at school because we want to develop the fluency. The more children see words, the more they begin to read them automatically without having to sound them out.

We use assessment to match your child the right level of book

We assess your child every six weeks to check progress. Any child who needs extra support has daily keep-up sessions planned for them.

Reading a book at the right level

This means that your child should:

- Know all the sounds and tricky words in their phonics book well.
- Read many of the words by silent blending (in their head) – their reading will be automatic.
- Only need to stop and sound out about 5% of the words by the time they bring the book home – but they should be able to do this one their own.

Reading at home

The most important thing you can do is read with your child

Reading a book and chatting had a positive impact a year later on children's ability to....

- understand words and sentences
- use a wide range of vocabulary
- develop listening comprehension skills
- The amount of books children were exposed to by age 6 was a positive predictor of their reading ability two years later.

Books going home

As well as the 'learning to read' book that your child will bring home they will also bring home a book for sharing with you. This book is SO important. This is how we are going to give them the WILL to read. Please read with your child as often as you can – at least once a day if possible.

Listening to your child read their phonics book

- Your child should be able to read their book without your help.
- If they can't read a word read it to them.
- Talk about the book and celebrate their success.

It is really important that you pronounce the sounds correctly at home if you are supporting your child. These videos are on the website for you to refer to and if you are unsure, please ask your child's teacher.

Read to your child

The shared book is for YOU to read:

- Make the story sound as exciting as you can by changing your voice.
- Talk with your child as much as you can:
- Introduce new and exciting language.
- Encourage your child to use new vocabulary.
- Make up sentences together.
- Find different words to use.
- Describe things you see.
